

## Conventional Greases

A comprehensive range of Lithium based, including complex, molybdenum disulphide; calcium based and foodgrade greases.

## Specialised Greases

Copper grease, brake grease, silicon grease, red rubber grease and more (see separate leaflet).

## Cleaning Agents

**Traffic Film Removers** Caustic and non caustic, highly effective materials for every application.

**Degreasers** Emulsifiable and standard powerful solvent degreasers for the most arduous situations.

**Corrosion Protectors** De-watering fluids for long-term protection.

**System Cleaner** Highly effective Biocidal machine cleaning agent.

**Hand Cleaners** Heavy duty beaded gels for heavy soiling and perfumed soaps for washrooms

**Plus** Wash & Wax, Washing up fluid, Screenwash, Antifreeze.

## Aerosols

A full range of maintenance and cleaning products in easy –to –use aerosols.

## Equipment

A complete range of lubrication and fluid handling equipment. Details available on request.

**Kanady Ltd is a local distributor of oils, lubricants and associated products based in Oxfordshire, supplying a comprehensive range of products to all types of industry.**

**Engine Oils**

**Hydraulic Oils**

**Transmission Fluids**

**Gear Oils**

**Metal working Fluids**

**Greases**

**Cleaning Agents**

**Traffic Film Removers**

**Aerosols**

**Oil/Grease handling and dispensing equipment.**

**KANADY LTD**

Home Farm Works  
Clifton Road  
Deddington  
Oxon. OX15 0TP

Phone: 01869 336111  
Fax: 01869 338222  
E-mail: sales@kanady.co.uk

**KANADY LTD**

**Supplier of Quality Oils,  
Lubricants and Associated  
Products**

**Promptly delivered  
direct to your door.**

**CONTACT US ON: 01869 336111**

## Industrial Oils

### CUTTING & GRINDING FLUIDS

**Neatcut 22** Medium viscosity neat cutting oil, suitable for medium duty machining of ferrous and non-ferrous materials.

**Neatcut HD** Medium viscosity neat cutting oil, suitable for heavy duty machining of mild, medium and high tensile steels including stainless.

**Kancut Multisol** Water soluble, non-phenolic conventional milky cutting fluid for low & medium tensile ferrous and non-ferrous materials. It is not suitable for use on stainless steel.

**Kancut Soluble P** An extended life soluble cutting fluid designed to perform a wide range of applications on difficult to machine aluminium and its alloys plus a wide variety of ferrous materials.

**Kancut Soluble S** Biostable extreme pressure coolant ideally suited for both ferrous and non-ferrous materials on which water based fluids can be used.

**Kancut Ultima** Multipurpose, semi-synthetic, water soluble, long life, cutting and grinding fluid. Ultra low foaming performance at high pressure.

**Kangrind XL** Water soluble, fully synthetic, nitrate free, grinding fluid for ferrous & non-ferrous materials

**EDM Fluid** Clear, white, low viscosity hydrocarbon with good fines separation.

*Please note: A full range of specialised cutting fluids is available tailored to your requirements, phone for information.*

### GEAR OILS - Kanlube 100/150/220/320/460/680

Specially formulated extreme pressure industrial gear oils.

### SLIDEWAY OILS- Kanslide 32/68/220

Specially designed tacky slideway lubricants.

## Agricultural Oils

### **Monograde Engine Oils - SAE 30/40/50**

Suitable for vintage petrol and diesel engines and applications requiring a non additive lubricant.

**STO 15W30** Super Universal Tractor oil suitable for engines, transmissions, hydraulics and final drives.

**STO Plus 10W30** Modern Universal Tractor oil suitable for the latest engines, transmissions, hydraulics and final drives.

**Universal Farm Transfluid** Modern Universal Tractor Transmission oil for transmissions, hydraulics and final drives and greatly reduces wet brake noise and chatter.

**LS 90 Diff Oil** for vehicle axles and differentials with limited-slip requirements, to satisfy multi-disc brakes in controlling power flow in final drive units.

## Hydraulic Fluids

### **EP5/10/15/22/32/46/68/100/150 Hydraulic fluids**

Suitable for a wide variety of applications and are recommended for rotary, vane, axial piston, gear pumps and bearings in many types of circulating systems.

**Biolube 32 & 46** Specialist premium quality, biodegradable high performance hydraulic fluids

**Poclain 46** High VI multigrade premium quality product. Suitable for use where hydraulic oils of ISO 32,46 and 68 are normally recommended.

## Compressor Oils

**Kancom 32 & 46** Premium quality, low carbon forming compressor oils recommended for the lubrication of screw type compressors.

**Kancom 68 & 100** Premium quality, low carbon forming compressor oils recommended for the lubrication of reciprocating (piston) type compressors and in sliding vane applications.

**Kancom 150** A premium quality, low carbon forming, compressor oil designed for reciprocating, screw and rotary compressors.

## Automotive Engine Oils

**Ultima UHPD 10W40** The ultimate high performance diesel engine oil. Synthetic, fuel-efficient engine oil meeting the most demanding long drain requirements.

**Multi SHPD 15W40** Super high performance multigrade petrol and diesel engine oil meeting the latest OEM long drain requirements.

**Unifleet 15W40** High performance multigrade engine oil suitable for petrol and diesel engines, meeting the latest API classifications.

**Ultima SS10W40** Semi-synthetic, fuel-efficient multigrade engine oil suitable for petrol and diesel engines, meeting the latest API classifications.

**Ultima 5W40** Fully synthetic, highly advanced lubricant, formulated to cope with the extreme lubrication demands of high performance, high speed petrol and diesel engines.

**Ultima SS 5W30** High technology, semi-synthetic engine oil suitable for petrol and diesel engines, giving outstanding performance under the most arduous conditions. It is recommended for use in Ford Zetec engines.

**Unifleet 10W30** New generation low viscosity multigrade engine oil suitable for petrol and diesel engines. It helps improve hydraulic tappet response and reduce cold start circulation problems.

**Optima Vimax 0W30** Fully synthetic top tier motor oil designed to meet the demands of modern vehicles especially high performance turbo-charged and supercharged petrol and diesel multi-valve engines.

## Automotive Gear Oils

### **EP 80 / 90 / 140 Monograde Gear Oils**

Quality lubricants with outstanding anti wear protection.

**EP80W90 & EP85W140** Extreme pressure multigrade oils

**SSGO 75W90** Synthetic, extreme pressure gear oil. The synthetic base stocks used provide for its wide viscosity range, giving excellent performance and protection under all conditions.

**ATF Universal** Automatic transmission fluid with excellent oxidation stability and frictional characteristics, for use in all major automatic transmission and power steering systems.

**ATF Dexron III** Semi synthetic automatic transmission fluid meeting the latest Dexron III specification.

**Full Synthetic Autotrans** for extended fluid change intervals.
