Conventional Greases

A comprehensive range of Lithium based, including complex, molybdenum disulphide; calcium based and foodgrade greases.

Specialised Greases

Copper Anti-seize, brake grease, silicon grease, red rubber grease and more (see separate leaflet).

Cleaning Agents

Traffic Film Removers Caustic and non caustic, highly effective materials for every application.

Degreasers Emulsifiable and standard powerful solvent degreasers for the most arduous situations.

Corrosion Protectors De-watering fluids for long- term protection.

System Cleaner Highly effective Biocidal machine cleaning agent.

Plus Wash & Wax, Washing up fluid, Screenwash, Antifreezes, Mould release agents

Aerosols

A full range of maintenance and cleaning products in easy –to –use aerosols.

Equipment

A complete range of lubrication and fluid handling equipment. Details available on request.

Kanady is a distributor of oils, lubricants and associated products based in Oxfordshire, supplying a comprehensive range of products to all types of industry, nationwide

PRODUCT INFORMATION LEAFLET

Kanady Ltd
Home Farm Works, Clifton Road,
Deddington, Oxfordshire.
OX15 0TP

Opening Hours:
8.30am—5pm Monday-Friday

Metalworking Fluids

NEAT CUTTING Oils

Neatcut 22 Medium viscosity neat cutting oil, suitable for medium duty machining of ferrous and non-ferrous materials.

Neatcut HD Medium viscosity neat cutting oil, suitable for heavy duty machining of mild, med. and high tensile steels including stainless.

Neatcut S12 Multi-metal high performance neat cutting oil, with low viscosity characteristics, for use on high tensile steels, stainless steel, alloys.
Designed specifically for use on sliding head CNC machines with through tool coolant

SOLUBLE CUTTING Oils

Kancut Multisol Water soluble, non-phenolic conventional milky cutting fluid for low & medium tensile ferrous and non-ferrous materials. It is **not** suitable for use on stainless steel.

Kancut Soluble X LF unrivalled cutting performance for use in a wide range of difficult materials and is a perfect choice for aerospace. Chlorine free technology offering significant benefits in performance. It is inherently *low foam* and hard water stable.

Industrial Oils

GEAR OILS- ***Kanlube 100/150/220/320/460/680***

Quality extreme pressure industrial gear oils.

SLIDEWAY OILS- ***Kanslide 32/68/220***

Specially designed tacky slideway lubricants.

COMPRESSOR OILS

Kancom 32 & 46 recommended for screw type compressors.

Kancom 68 & 100 recommended for reciprocating (piston) type compressors and in sliding vane applications.

Kancom 150 (Hydrovane 2000) designed for reciprocating, screw and rotary compressors.

Kancom PAO 100 Fully synthetic compressor Oil

Hydrovane 4000 A premium quality, low carbon forming, semi-synthetic 4000 hour compressor oil, offering superior performance in reciprocating, screw and rotary compressors.

Agricultural Oils

Monograde Engine Oils **- SAE 30/40/50** Suitable for vintage petrol and diesel engines and applications requiring a non additive lubricant.

Series 3 SAE 10W & 30W Monograde engine oil for normally aspirated and turbo charged diesel engines.

STO 15W30 Super Universal Tractor oil suitable for engines, transmissions, hydraulics and final drives.

STO Plus 10W30 Modern Universal Tractor oil suitable for the latest engines, transmissions, hydraulics and final drives.

Universal Farm Transfluids Modern Universal Tractor oils for transmissions, hydraulics and final drives and greatly reduces wet brake noise and chatter.

ATF TO-4 10W & 30W heavy duty power transmission, final drive and hydraulic fluids formulated to meet the exacting requirements of the Caterpillar T0-4 specs.

LS 80W90 Diff Oil for vehicle axles and differentials with limited-slip requirements, to satisfy multi-disc brakes in controlling power flow in final drive units.

Hydraulic Fluids

EP5/10/15/22/32/46/68/100/150 Hydraulic fluids

Suitable for a wide variety of applications and are recommended for rotary, vane, axial piston, gear pumps and bearings in many types of circulating systems.

Poclain 46 High VI premium quality product, dyed blue to differentiate it from standard hydraulic oil.
High VI oils 15,22,32,46,68,100 High viscosity index oils maintaining viscosity over a wide temperature range.

Biolube 32 & 46 Specialist premium quality, biodegradable high performance hydraulic fluids.

Biolube SE46 Synthetic ester based, biodegradable hydraulic fluid.

Other Lubricants : Mould Release Agents, Transformer Oils, Heat Transfer oils, Quenching Oils, Flushing Oils, White Oils, Food Grade Oils, Scaffold lubricant.

This list is just a snap shot of what we have to offer.

Please call us if you have a specific requirement that is not shown here and we will be happy to help you find what you need.

Automotive Engine Oils

Multi SHPD E7 15W40 Super high performance multigrade petrol and diesel engine oil

Unifleet 15W40 High performance multigrade engine oil suitable for petrol and diesel engines

Ultima SS10W40 Semi-synthetic, fuel-efficient multigrade engine oil suitable for petrol and diesel engines.

Unifleet 10W30 Low viscosity multigrade engine oil suitable for petrol and diesel engines.

Ultima 5W40 Fully synthetic lubricant for petrol and diesel engines.

Fully Synthetic 5W30,5W20, 0W20, 0W30 A whole range of synthetic and low saps oils to meet the very latest OEM requirements

Commercial Engine Oils

Euro 10W40 fully synthetic low SAPS engine oil for the latest Euro 5 and many Euro 6 commercial vehicle engines

Multi UHPD E11 15W40 new generation Super High Performance heavy duty diesel engine oil formulated to meet the latest Euro 5 & 6 low emissions requirements.

Multi UHPD E11 10W30 new generation Super High Performance heavy duty diesel engine oil formulated to meet the latest Euro 5 & 6 low emissions requirements.

Euro FE 5W30 state of the art, fully synthetic low saps engine oil designed to offer the user exceptional fuel saving benefits.

Automotive Gear Oils

EP 80 / 90 / 140 Monograde Gear Oils Quality lubricants with outstanding anti wear protection.

EP80W90 & EP85W140 Extreme pressure, multigrade gear oils.

SSGO 75W90, FS 75W90, FS75W80 Semi synthetic and fully synthetic, extreme pressure gear oils.

ATF Universal Automatic transmission fluid with excellent oxidation stability and frictional characteristics, for use in all major automatic transmission and power steering systems.

ATF Dexron III Semi synthetic automatic transmission fluid meeting the latest Dexron III specification.

ATF Dexron IV Fully synthetic automatic transmission fluid meeting the latest Dexron IV specification.

Fully Synthetic Automatic Transmission Fluids A full range to meet the latest OEM requirements.
